FILDEX® PREMIUM FUEL FILTERS

High quality fuel filter is necessary in order to provide durability for the engine. Clean fuel is an essential requirement of a fine operating engine. Fuel filter ensures that the fuel system is not polluted with the contaminants. Any wear on the injection system will increase fuel consumption, and will result in low fuel economy and low engine efficiency.

FILDEX® FUEL FILTERS FEATURES:

HIGH FILTERING PRECISION

HIGH FUEL/WATER SEPARATION

HIGH EFFICIENCY AND PERFORMANCE

HIGH QUALITY MATERIAL

LONG SERVICE DURABILITY

WHY FILDEX® FUEL FILTERS ARE RECOMMENDED?

- Operational safety for engines.
- Protection for the highly delicate injection mechanism and the carburetor.
- Removal of unwanted fuel contaminants such as dust, rust or water which cause wear.
- Protection for injection system from corrosion.

*FILDEX®*See vehicle manufacturer's recommendation for change interval.
